Allowable Subject Matter

Claims 1-37 are allowed.

The following is an examiner's statement of reasons for allowance: The present invention is directed to an automatic sheet material (paper towel) dispenser. The independent claim identifies the uniquely distinct feature " a control apparatus of the dispenser determine a time duration for powering the motor in the next dispense cycle based at least in part on the power source output value". The closest prior art, Denen et al. (US 6,592,067) and Elliot et al. (US 6,695,246) discloses conventional sheet material dispenser, either singularly or in combination, fail to anticipate or render the above limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
